Senior Intelligence Analyst (full-time, Consultancy basis)

Wildlife Justice Commission:
Law enforcement and legal experts fighting transnational organised wildlife crime.

The Wildlife Justice Commission (WJC) is a non-profit organisation based in The Hague, The Netherlands established in March 2015. Its mission is to disrupt and help dismantle transnational criminal networks trading in wildlife, timber and fish. We do this by collecting evidence and turning it into accountability.

Position overview

The position is a unique project-based role to develop and build intelligence capabilities in Southeast Asia. This position will require working closely with partners to assess, train and mentor law enforcement and conservation agencies in the value and effectiveness of intelligence, research, and analysis. This position will also be required to deliver intelligence products as per the Wildlife Justice Commission’s operational needs. The Senior Intelligence Analyst is part of the Wildlife Justice Commission’s Investigations Team and will report to the Director of Intelligence.

This position will be based in Southeast Asia (location tbd) but during the COVID restrictions it will be home based. It is fully funded until February 2024. This position is offered on a consultancy basis.

Responsibilities

- Support a training programme to implement intelligence and analytical training;
- Production of analytical intelligence products to drive and focus investigations.

Requirements

Role requirements

- At least three years’ experience in intelligence analysis and proven experience in developing intelligence to inform operational and tactical assessments;
- Experience of identifying investigative opportunities are always considered as part of an analytical report;
- Working knowledge of i2 products such as iBase and Analyst Notebook or similar analytical software;
- Experience of applying specialised analytical techniques;
- Ability to gather, analyse, or evaluate information from a variety of sources, identify key intelligence gaps;
- Advanced working knowledge of Microsoft Excel, excellent IT skills with proficiency of other Microsoft products;
- Excellent research skills, including open sources and the interrogation of social networking sites;
- Excellent attention to detail and ability to identify patterns and trends.
Desirable Skills
• Delivering and / or preparing training materials in the discipline of intelligence analysis;
• Experience of managing and implementing projects and / or budgets;
• Previous experience working in the field of conservation and experience working on wildlife-crime related issues.

Experience and Background
• Experience of working in an operational, law enforcement environment (required);
• Undergraduate degree (desirable);
• Fluency in English required, additional language skills are preferable;
• Residing in Southeast Asia.

We offer
• A consultancy contract for 40 hours per week until February 2024
• An international environment and working in English.
• A chance to make a difference.
